which are now in better condition than ever before. Long famous as a stock-breeding county, Batier in the exhibits of her stock raisers this wear surpasses all previous records. Last year the association was cramped for room, and the stock and cattle shows to some extent encroached upon the track and domain of the trotters, while largely interfering with the privileges of the boothkeepers. Ample provision is made this year, three large new buildings having been erected for the accommodation of the stock in the large space at the rear offthe inclosure. The association gives its most earnest efforts to the accommodation of the exhibitors, yet the interests of the trotting men have not been overlooked. Their stable space has been enlarged, and the grand stand has been extended sufficiently to guarantee the fullest accommodation to the lovers of horse racing.

antee the fullest accommodation to the lovers of horse racing.

There were two events on the card yesterdas, neither of them very important, yet of sufficient interest to entertain the people who were on hand to begin with the fair at the beginning. The first race, in the 2-cear-old class, had four entries, and while the time made was not very fast, the racing was earnest enough to be exciting. There were four entries also in the three-minute class, which held the interest of the spectators until the close, the result being anything but a foregone conclusion.

pacing event and the race for stallions. There have been ten nominations made for each o e of these, and it is believed that none of the entries will be drawn. There are some flyers among the pacers, and the stallions' race is expected to be of unusual interest. On Thursday there will be a 2-10 trotting event, the race for the Farmers' cup and the free-for-all. For each of these large fields have been entered, speedy animals from many sections of the Western part of the Satte being upon the ground to participate, and the day bids fair to be one of the liveliest of the secson on the track.

The fair will close on Friday, when the free-The fair will close on Friday, when the free-for-all pace, the 2.38 trot and race for 4-year-olds will be decided. In the stables of the sporting men are fivers from New Castle, Reaver, Allerheny, Pittsburg, Sandy Lake, Evansburg, Kittanning and other places, the trotters and pacers numbering in all over 70. h.There is a noticeable improvement in the general features of the fair. The various ex-hibits will not only be more numerous this year than ever before, but they will also, in nearly every case, be of a higher grade. This charac-teristic of the displays is conspicuous, esteristic of the displays is conspicuous, especially in the exhibition of agricultural implements, and in the main Exposition building, where there is an a ray of furniture, pianos, fancy goods and household utilities of various kines that would be creditable, even to the big Exposition in Pittsburg. The floral display is also notable, but Butler must resign the credit of that feature to Albertony, the avcredit of that feature to Allegehny, the ex-tions being Ludwig and Richter, of that. In the fine art department the exhibition to finest ever made here, and to the esthetic will probably prove the most attractive are of the fair.

The foreshadowed success of the fair is undoubtedly due to the judiciously liberal management of the association in the arrangement their premium list, and in their guaranteed protection of exhibitors and purchasers of privileges. An abundance of means for innecent amusement have been provided, but the fraudulent "fakir" has been frowned upon and excluded from the fair grounds and its vi-

ALWAYS THERE.

The striking machine is here, of course, and so is the lemonade fiend, and his friend, the peanut vender. So is the fellow who gives you a cane, if you succeed in passing a ring over it, and near him is a freak show with monstrosities enough for twice the price of admission

for those who like that sort of thing.

The list of premiums is extraordinarily long, and unusually liberal. Among its most important features is the educational department, in which the pupils of the schools of the county take the liveliest interest. In the contest for prizes the lists are open to all pupils. The inducements held out to aspiring competitors are shown in the following list of awards:

It goes without saying that the work of the pupils is one of the most interesting exhibits of the fair, and it is bound to enjoy a lion's share of the attention of the thousands of visitors. The variety and extent of the general exposition may be inferred from the fact that the exhibits are divided into 73 classes, the ensemble being as complete and comprehensive as it is possible to make it. possible to make it.

being as complete and comprehensive as it is possible to make it.

To large numbers the stock and cattle show will be the features of chief interest. In this department the display will be finer than ever before made in this county. It includes among the heavy draft horses breeds of the Clydesdale, English Shire, Percheroa, graded Percheroa and Cleveland bays, light draft and blooded horses, roansters and carriage horses. In all of these grades therefore especially fine representatives on view, and the judges will have no sinecure in awarding the prizes.

The cattle show embraces Durhams, Devons Jerseys, Hoistens, Ayreshires, Guernseys, Herefords, Aberdeen, Angus, Galloway, all registered, also unregistered Durhams and Jerseys, beside native grades and milet cows. The sheep show embraces Merinos, Southdowns, Cotswolds, Leicesters, Oxforddowns, Lincolnshires, Hampshiredowns, Shropshiredowns, all registered, and crosses and grades. Among the swine are creditable representatives of Poland China, Berkshire, Yorkshire, Jersey Reds, Essex, Cheshire and Chester White, all registered. The poultry show is also very complete, embracing representatives of all the most famous strains.

BUTLER, September 10.—The twelfth annual fair of the County Agricultural Association began to-day under the most favorable auspices. The weather was delightful, and the exhibitors were as busy as possible preparing their displays for the multitudes that are confidently expected to be in attendance to-morrow and on each succeeding day until the close on Friday night. There were a great many visitors to the grounds, but no one would admit that the fair was really in operation, the opening being-simply an assurance of the events that will follow.

With a continuance of fair weather there is no doubt that this will be the most successful fair in the history of the association. During the year many important improvements have been made on the grounds which are now in better condition than ever before.
